AYER'S

Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. Ayer & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was advised to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla, for I know from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scabs, which, after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a bad-seems swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where this complaint was caused by *ulceration of the uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newberry, Ala., writes, "A dangerous *ovarian tumor* in one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

New Orleans, 25th August, 1859.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal, Mercurial Disease*. One of my patients had Syphilitic sores in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, C. V. LARIMER, M.D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

Dr. J. C. Ayer: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Kennedy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable ecchpiants have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

"PUBLIC FAITH AND HONOR" VS. "POSSIBLE EXPEDIENCY."

As the smoke of the late Capital battle subsides and lookers-on are able to see the question clearly in all its bearings, we imagine there are very few unprejudiced observers who do not feel that when Governor Seymour summed up the whole matter by putting "Public faith and honor" in the New Westminster scale and "possible expediency" in that of Victoria he exactly "hit the nail on the head," and found the "bed-rock," (if we may be allowed to use a localism) of the whole subject. His Excellency does not say, as some wish to make out, that he thinks it expedient to move the Seat of Government to Victoria, were he not hindered by law from doing so. No such thing. He merely admits that, in view of all the circumstances, there is just a possibility that it might be expedient to make Victoria the temporary seat of Government if that question had not been decided upon by the Imperial and Colonial Governments long before he had anything to do with the country. It is not at all surprising that the Victoria Press should try in every possible way to present the question in a different shape before the public than that in which the Governor so pointedly puts it in his prorogation speech. Hence provisos, fancies, and suppositions of possible things that never did and never will exist are thrown into the scale of "possible expediency;" but as well might they expect "a feather shaken from a linnet's wing" to balance an elephant, as to suppose that doubtful expediency can outweigh "public faith and honor" in the estimation of the Colonial Office or the present Representative of our noble Queen. As might have been expected special importance appears to have been attached to the speech delivered by Mr. Young on this subject, his speech having been twice published in the *Colonist*, and its arguments re-echoed again and again in that and the other paper. It was naturally supposed that if any one could find weakness in the proclamations and other acts by which New Westminster was established as the Capital, and threw a mist over the "public faith and honor" which are part of its support that one was Mr. W. A. G. Young. From his long experience as Colonial Secretary, his thorough acquaintance with the whole subject, as well as from his diplomatic, sophisticated turn of mind and his noted ability for making the best of a poor case, it was believed that if any one could discover flaws in the title of New Westminster to be the Capital, he was the man to do it. His palpable failure now constitutes one of the strongest towers of our strength, and an excellent witness to the impregnability of our position. Let anyone take up the second edition of his speech, evidently published from his own manuscript, and what does he find? He will not fail to observe that Mr. Young, in his determination to bring all his strength to bear in trying to weaken the "public faith and honor" which he saw to exist on the side of New Westminster, actually threw overboard nearly every argument (?) advanced by those who preceded him on the same side. He thought that Mr. Wood's great plea about "stumps" and "mosquitoes," on the one side, and "flowers," and "enchanting walks" on the other, did not amount to much in a question of this nature. The old bugaboo story about the inaccessibility of New Westminster to sea-going vessels was exploded and should not be mentioned. The Hudson Bay Company's argument that New Westminster could never be a place of any importance, that it was merely kept alive by the presence of the Government, that the Company aforesaid could annihilate it any day by running their steamers direct to Langley, all these nonsensical halucinations be directly combated, and showed that there must be a town on the Lower Fraser, and that it would doubtless be at this point—that, even deprived of the presence of the Government, New Westminster would continue to grow, and ultimately become a place of considerable magnitude. When he got to his real task—to invalidate the legal claim of New Westminster to the Seat of Government, or, at least, to discover a flaw in the title—the main object was to make it appear, without just saying so, that Vancouver Island was the senior Colony, and that after it was established, with Victoria as the Capital, British Columbia merged into existence, and it became necessary that a second seat of Government should be selected; and hence the origin of Derby *alias* Langley, and its subsequent abandonment in favor of New Westminster; but, now that the two Colonies had become one, a second capital was no longer required, and our true policy was to fall back upon the first and greatest, and centralize the interests there as in former times. This plea would be very plausible if it were strictly in accordance with facts. But no one knows better than Mr. Young that at the time the mainland was erected a Crown Colony, Vancouver Island was simply a territory of the Hudson Bay Company, governed by the Company's officials. It was called a Colony very much in the same sense as the Red River Colony, although the people there are at the present moment praying to be made one—that is that the position of the settlement may be changed from that of a Colony of the Company to that of the Crown. Vancouver Island and its dependencies were leased to the H. B. Co., in a charter distinct and essentially different from that by which they previously held the mainland, for purposes of colonization. The mainland lease expired in 1858, but that of the Island did not terminate till a year later. This was the chief reason, perhaps the only reason, why it was not included when British Columbia was erected into a Crown Colony. But, as we showed a week ago, a door was kept open for its admission, and the conditions clearly defined; and from that day to the present the people of Victoria, backed by the whole strength of Hudson Bay influence, both here and at home, have been making one continual and determined effort to have these conditions changed, and reverse the relative positions of the Island and the Mainland. The Colonial Office has, on the other hand, gradually and steadily pursued its purpose, and seized upon the very first opportunity that offered to terminate the peculiar and quasi-organized existence of Vancouver Island as a Colony, by its absorption, thus leaving New Westminster in the very position for which it was chosen and established as the Capital, not of the mainland alone, but of British Columbia with its contemplated dependencies, the first and only Capital, in fact, of the British Pacific. We say *only* because Langley was never chosen nor established as the Capital; neither was Victoria. We do not say that the seat of Government may not be changed upon local recommendation. When the Colony possesses a sufficiently large and fixed population to entitle it to "Responsible Government," and when it shall be in possession of that system of Government, the will of the people will be supreme in the management of all purely local or domestic matters, and must be heard. But, while entertaining unbounded faith in the great future of British Columbia, one is forced to admit that existing party lines and local prejudices will all have been obliterated long ere that ardently-to-be-desired condition of things can reasonably be expected to exist. The unaccountable prejudice against New Westminster, said to exist in the minds of some of the miners, will have died out, and the natural as well as the legal and equitable claims of New Westminster, the wisdom of the selection made by the Imperial Government will have all become clearly seen, and readily acknowledged by the people of every section. We have no doubt that even now if one hundred disinterested judges were called in, ninety-nine of them would say that, with Confederation and overland communication in view, it would be most unwise to move the Seat of Government, even temporarily, beyond the Gulf of Georgia and south of the 49th parallel of latitude.

THIS Company having greatly enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of materiel and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the mining and commercial value of bullion.

Their charges hereafter will be as follows:—

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS.

One-eighth of one per cent. (hitherto a quarter) for all amounts over $1,000, and two dollars for any smaller sum. Returns made in twenty-four hours.

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS.

Two dollars for the gold contained, up to $1,000, and one eighth of one per cent. for all amounts over that sum, and one per cent. on the silver contained. Returns made in twenty-four hours.

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS.

On bullion under 900 parts gold, 2 cents per ounce.
On bullion 900½@600 parts gold, 4 cents per ounce.
On bullion 600½@750 parts gold, 6 cents per ounce.
On bullion 750½@850½ parts gold, 8 cents per ounce.
Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

FOR COINING GOLD.

This charge will be the same as at the mint—a half of one per cent.—or, which is paid by us to that Institution. But there will be no charge for coinage for melting fine gold or silver bars from bullion refined by us.

RETURNS IN COIN MADE IN FORTY-EIGHT HOURS.

Silver contained in deposits for coin will be accounted for at the same rate that many at the Mint.

Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates.

Bars and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co's Express.

CHARGES AT U. S. BRANCH MINT.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that Institution.

For refining bullion under 899 parts gold, 3cts per oz.
For refining bullion from 900½@600 parts gold, 5cts. per ounce.
For refining bullion from 600½@750 parts gold, 7cts. per ounce.
For refining bullion from 750½@850 parts gold, 11cts. per ounce.
For refining bullion from 850½@900½ parts gold, 14 cts. per ounce.
The charge for coinage is one-half of one per cent., and the charge for melting fine silver bars, the same.
Comparing the net value of deposits for coinage, with the proceeds of imported gold bars sold in the market—assuming that the bars have cost ¼ of one per cent.—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage or refining:

820 par to equal Mint return, at refining charge of 14 cents.
845 par to equal Mint return, at refining charge of 11 cents.
866 par to equal San Francisco A. & R. Works return, at refining charge of 8 cents. ma30 3m

AN AWKWARD MISTAKE.

The rumoured dismissal of Mr. Woods, Acting Registrar of the Supreme Court at Victoria, and consequent appointment of Mr. Fowler to that position, appears to have afforded a fitting opportunity for one of those characteristic ebullitions of popular indignation for which that community is becoming so famous, that is if the newspapers published there are really an index of popular sentiment. Leader after leader, has been written, letter upon letter has been published, some berating his Excellency for the manner in which an undoubted prerogative was *supposed* to have been exercised, others abusing the *supposed* fortunate appointee, who had been so unfortunate as to fall under the displeasure of the gallant "Knights of the Quill" One paper, in a leading article, alludes to Mr. Fowler as "less considered at the Colonial Office than an apothecary who can make pills for the dogs of the Right Honourable Secretary." It would be a poor retort to say that the fellow who wrote the article would be less considered at the Colonial Office than the dogs of the Right Honourable Secretary; and yet it would probably be less unjustifiable than so offensive an allusion to a gentleman whose only sin appears to consist in an imaginary appointment to office. Our object in these remarks is not so much to enter into the merits of the case, as to point out the extraordinary ground upon which the *Morning News* opposes the dismissal of Mr. Woods, viz., that he has "a large and expensive family depending on him for a means of support." However desirable it may be to encourage people with large families to seek employment in this Colony we must object to the principle sought to be established, viz., that "a large and expensive family" constitutes *per se* a claim to gubernatorial patronage. No one would be more desirous than ourselves that, in the distribution of patronage, the Governor should, *cæteris paribus*, give a preference to the candidate with a large family, whether such family should happen to be an expensive or economical one. Crown Colonies by this time ought to be rather chary of encouraging the pensioning of gentlemen with "large and expensive families" upon the State purse. The Colonists have, as a general thing, their own families to provide for; and they would be very likely to object to the additional load. The sentiment enunciated by our contemporary may be very philantropic; but it ill accords with the general tone of the press, or with the present financial circumstances of the Colony, The Victoria newspaper men must indeed have felt crest-fallen when they learned that the whole thing was only a "mare's-nest."

OUTRAGES UPON THE LIBERTY OF THE PRESS.

We notice a very foolish squabble going on in the Victoria newspapers containing most unwarrantable interference with and attacks upon private character. The *Morning News*, not long ago, referred in sneering and offensive terms to the Presbyterian Church as a "certain religious sect," and to the Rev. Mr. Jamieson as an "humble disciple of John Knox," and expressed astonishment at the Governor writing a letter of explanation to one "so far beneath him socially"! (How very careful he has become of the Governor's dignity.) This has led to a wordy war of angry personalities in both papers, in which some queer antiquated doctrines are propounded, and amusing codes of etiquette prescribed. Some of the disputants seem to think they are living in Scotland, while others again imagine they are still vegetating under the very shadow of some venerable cathedral tower, where ecclesiastical red-tape has been in the ascendant for centuries. Poor fellows! Will no one rouse them up and inform them they are in the Colony of British Columbia, far, far away in the northern regions of the Pacific Ocean? Wake up gentlemen and open your eyes to the fact that there is no State Church here—no dissenters—no aristocracy—no privileged classes—everyone's "social status" regulated by his own talents or habits, or his or his neighbours' likes and dislikes; and do try and realize the fact that the people of this Colony are not and will not be bound by the peculiar institutions or customs, politically, or socially or ecclesiastically of any one country on the face of the earth, to the exclusion of what may be deemed good in others. In the latest copy of the *News* brought up on Tuesday, one signing himself "Neutral" flashes on the stage and dons the oracular. He however, soon shows that the *nom de plume* was chosen to deceive the public, that he is anything but neutral. Dropping a few "crocodile tears" at his own request, this person or *persons* affects to be vastly concerned for the "respectability" of his friends, and so "disinterestedly" seeks to make a whole religious denomination responsible for the ravings of a few anonymous scribblers.

DEPARTURE OF THE SHEARWATER.

Her Majesty's Ship Shearwater left this station on Thursday, shortly after 2 o'clock. It was known in town that she would sail about that time, and every preparation was made to tender a parting compliment. Bunting was soon to be seen flattering from the top of every flag-staff, while the Hyack Brass Band took up a prominent station on Pioneer wharf. As the ship passed at half-speed the Band played "Auld Lang Syne," the sailors running nimbly up into the rigging, one taking a position at the fore and main truck respectively, all waving their caps in acknowledgement. Immediately the shrill whistle of the Boatswain summoned the crew to the forecastle the officers occupying the quarter-deck, where three right hearty cheers were given. When she came opposite the head office of the Telegraph company the "Star Spangled Banner" was dipped. The compliment was promptly acknowledged on board the ship, and three hearty cheers given by the jolly "blue jackets," and the gallant ship bore down the river amidst the waving of handkerchiefs and was soon lost to view. Although the Shearwater has been less than a month in our harbour one really felt as if parting with old familiar friends. Probably no ship in the service can boast of a more gentlemanly and agreable set of officers, or a more goodnatured and jolly crew, certainly none which have yet honored this station with their presence have succeeded in making so many friends upon so short an acquaintance. The Shearwater is awaiting orders to return to England, where it is understood she will go out of commission, so that the people of New Westminster may possibly never enjoy the pleasure of renewing the agreable acquaintance; but we are sure that we do but express the universal sentiment of this community when we wish the officers, non-commissioned officers and men of Her Majesty's Ship Shearwater a *bon voyage*, and good-fortune where'er they go.

INDIANS ON THE FIGHT.—We learn that a somewhat exciting scene took place in the Court-room at Keremais (Similkameen) a few days ago. An Indian was brought before Mr. Haynes, charged with an assault upon a Chinaman with a deadly weapon. A friend of the prisoner entered the Court-room armed and in his war-paint, during the trial. Taking up the ink-stand from the desk he flung it at the head of the Constable, and levelled his rifle at the Magistrate who boldly advanced upon him, wrenching the rifle out of his hands. The Indian then drew a revolver, pointing it with deadly intent at the Magistrate, when one of the white men present threw his arms round the rascal, making him a prisoner after a severe struggle, while another Indian pointed a gun at him threatening to shoot him if he did not release the prisoner. During the affray the Indian who was on trial took himself off. It is doubtless owing to the coolness and bravery of Mr. Haynes that bloodshed was averted as a number of Indians were discovered outside, fully armed and prepared for a fight, which would have ensued had Mr. Haynes, who had a revolver within reach, fired upon the belligerent Indians. It will be necessary for the Government to take prompt and decisive measures to reduce these Indians to subjection. They have for sometime been known to be dangerous, and threatening, and are supposed to have killed several white men; and they now openly set all law and authority at defiance.

THE NEWS.

The telegraphic news which we lay before our readers this morning possesses rather more than average interest. A dark war-cloud hangs over Continental Europe. Ere this reaches the public eye, the Prince of Wales will in all probability be clad in the sombre habiliments of mourning, and a nation will be plunged into grief. Ex-Governor Eyre is to be afforded an opportunity of vindicating his character against the numerous charges brought against him in connection with the late sanguinary disturbance in Jamaica. The Imperial cause in Mexico appears at length to have assumed the attitude of a "forlorn hope" and "Max," if not already beyond the reach of the contending factions, may be thankful to escape alive. There would appear to have been a slight reaction in the House of Commons favorable to the Ministry. The division on the 12th inst. must have taken Mr Gladstone somewhat by surprise; and should the House reassemble on the 29th in the same temper, it is not impossible that to a Tory Ministry will have been reserved the task of carrying a "Reform Bill" through Parliament!

LOCAL ITEMS.

MR. JOHN F. ALLISON of Princeton, arrived at Hope on Thursday. He reports a severe winter and much loss of cattle in the Similkameen Country. He met an Indian from Cherry Creek, who informed him that the working party on the Cherry Creek Silver Ledge had struck it very rich. The report is not improbable, inasmuch as they were running in a tunnel designed to strike the bottom of the ledge, and they would have had reasonable time to reach it.

THE news from Yale is quite unimportant. The weather was, as here, disagreable, and snow fell on Thursday. Freighting had not fairly commenced, although in the course of next week lively times are expected. A very considerable quantity of goods have accumulated there and await transportation to the interior.

The steamer Onward, Capt. Irving, left for Yale on Wednesday carrying up a large freight and a number of passengers. She returned yesterday, bringing an Express for Deitz & Nelson but no news of importance. The water is now at a stage favorable to steamboating.

THE Indian who made his escape from the jail at Quesnelmouth last year, and for whose apprehension a reward of £500 was offered by Government, has been captured and is now in jail at Osoyoos Lake, from whence he will be sent to Lytton.

WE understand the Gubernatorial pleasure excursion to which we allluded a week ago, will start from here on Wednesday instead of Tuesday, on account of some parties from Victoria being invited. It is proposed to go as far as Boston Bar.

THE W.U. Telegraph Company's Sloop "Spread Eagle," Capt. H. Elliott, sailed for Victoria on Thursday morning. The "Spread Eagle" will be employed in the service of the Company on the Coast.

IT IS currently rumoured that Hon. Mr. Sanders is about to resign and return to England. Certain it is that all his effects are advertised for sale at Yale next week.

THE WEATHER has lately taken rather an unfavorable turn. During the last two days it has been cold, showery and blustering. In fact it is to be feared we are in for a backward spring.

THE Steamer Lillooet, Capt Fleming, went up to Yale on Wednesday and returned on Thursday evening. She took up a considerable number of passengers.

AMONGST the passengers by the Enterprise yesterday were the Hon. H. M. Ball, and Hon. J. J. Southgate.

H.M.S. SPARROWHAWK will probably arrive on Monday with our Eastern Mails.

BACK AGAIN.—We noticed amongst the arrivals by the Enterprise last evening, Mr. Clute, who has returned from Victoria with a new and choice stock of Spring Goods which he opens for inspection and sale to-day. *

WHAT A CONFESSION!—The *Colonist* denounced by the *News* as the "Government Organ," gives a rumour to the effect that Governor Seymour has leased the Admiral's residence at Esquimalt for a summer residence, Government House being too damp, requiring extensive repairs, and its situation being "bleak, and consequently unsuited for the residence of persons in a delicate state of health." "Thus," says our contemporary, "has $50,000 been worse than squandered on the purchase of Cary Castle and the erection of the unsightly pile of buildings on the summit of a great rock in a locality exposed to every wind that blows." Instead of giving the *Colonist* credit for telling the truth once in its lifetime the *News* pitches into it for making such an injudicious admission, and says that if such statements had appeared in this journal there would have been no difficulty in understanding the motive. Our contemporary then pronounces "Cary Castle" a most beautiful, healthful, dry, delightful residence! Who is most likely to know, His Excellency who has resided in the Castle too long for his health, or the itemsman of the *News*, who most probably, never darkened its door?

COLONIAL FLOUR.—We learn that Adam's Mill, at Soda Creek, has been in successful operation for some time and that wheat is flowing in to it. The flour has been brought into use on Williams Creek. It sells at $24 per 100lbs., and is pronounced excellent in quality, quite equal, in fact, to the famed "Golden Gate" flour of California. Should the other mills which have been erected in the interior succeed in producing an equally good article, there will be little if any foreign flour used in our northern mines three months hence. What a stimulus the thousands hitherto sent out of the country for the purchase of flour will thus give to agricultural pursuits in the interior and middle districts! There will doubtless be a falling off in the revenue in respect to that article, both in Customs Duty and Road Tolls; but will any one for a moment deny that the gain to the Colony will be ten, nay twenty fold? The gain will be in increased revenue, increased permanent population and augmented permanent prosperity.

OFFICIAL CHANGES.—It is understood that Mr. Spalding will be stationed at Nanaimo, Mr. Franklyn having obtained six months leave of absence. Mr. Franklyn had unfortunately so identified himself with a local party as to become most distasteful to the bulk of the people. Hence a change became necessary, not only as a simple act of justice to the people, but also in order that the Government might not be placed in a false position with respect to a large and important community. There can be no doubt that judicious changes in the location of the Stipendiary Magistrates might occasionally be made with advantage, although we confess we have long entertained some doubt as to the necessity for the presence of such an officer at Nanaimo. It is our impression that the system of salaried Magistrates is one called into existence by our gold fields, and that it should be confined to the gold producing districts.

FROM VICTORIA.—The str. Enterprise, Capt. Swanson, arrived from Victoria yesterday with a small freight and a few passengers. We glean the following from our Victoria exchanges: The *News* charges the *Colonist* with suppressing a telegram belonging to it, and which strayed into the office of the latter. The charge is denied by the one and vehemently reiterated by the other.——The Malacca drifted on a point of rocks on Thursday, but escaped injury.——The new grist-mill of Messrs. Gowen & Laumeister is to commence work on Wednesday or Thursday next.

TELEGRAPHIC.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

EASTERN STATES.

CHICAGO, April 11.—The Russian treaty was telegraphed to the Czar of Russia yesterday, at a cost of $9,500 It is understood that a formal assent has already been received.

NEW YORK, April 15.—The Moro Isle brings Havana dates to the 5th. The Liberals are besieging Vera Cruz. It is supposed that it cannot long hold out. The Imperialists are quarreling. Gomez Cuarez has resigned, Taboga has command, the siege is closely maintained; water has been cut off and the last bullock in the city has been killed.

The Havana *Diaria* reports that Max was at Cualavola, but does not state how he got there.

An extra of the *Star* and *Herald* dated April 1st, contains news of a revolution in Bogota. It says by this conveyance we have very important news from Bogota, and of which we expect full particulars by the regular mail.

A revolution has broken out in Bogota headed by Mosquera. The congress has in consequence been disolved

April 12.—European advices to March 29th say that Prussia is closely allied with the Russian Champions of the Christians of Turkey.

Austria has joined Russia, expecting indemnification for loss of territory by dismemberment of Turkey.

France has recently gone over to Russia, and is courting her friendship on the German question. All unite to recommend the Porte to cede Crete to England by official declaration.

The Earl of Derby declines to join, but will not oppose cession.

CHICAGO, April 13.—The *Times* Washington dispatch says, that a movement is on foot to visit Russian America.

Application has been made for the use of a Government vessel to be in charge of naval officers. Parties represent the arrangement as being nearly completed.

NEW YORK, April 13.—The *Herald* has advices that a battle occurred at Oneretaro April 2d. There is no doubt that the engagement resulted in an Imperial defeat. The contest was very stubborn. Escobado admits that the loss was heavy on both sides.

The Imperial chief had issued a proclamation offering $15 each to armed soldiers who will join them, and $5 each to those without arms; this is probably intended as a bait for deserters from the Liberals.

EUROPEAN.

LONDON, April 13.—The Princess of Wales is reported to be at the point of death. A surgical operation is necessary, but she cannot endure the pain and is too weak to take chloroform. The news has been carefully kept from the public.

April 12. (evening.)—The Grand Jury in the case of ex-Governor Eyre has brought in an indictment.

The Canadian R.R. Bill has been introduced in the House of Lords.

The fleet which sailed for Cadiz early this week took a peremptory demand from the British Government upon Spain for instant redress for the siezure of the steamer Victoria. The Spanish Government made an evasive reply to the summons.

In regard to the steamer Tornado, Spain made no answer whatever

LIVERPOOL April 12. (evening)—An Iron clad steamer has gone to sea supposed to be bound for Cadiz to support the claims against Spain.

BERLIN, April 11.—Count Bismarck sent an energetic note to Paris, demanding Emperor Napoleon's reasons. He says Prussia holds France responsible for the consequences of such a step and asks the cessation of warlike preparations.

DUBLIN, April 11.—Condon, otherwise called General Massey, the leader of the Fenian insurrection has turned informer, and will not be indicted.

LONDON, April 12.—Parliament has adjourned to April 29th on account of Easter Holidays.

During the debate on the Reform Bill, in the House of Commons this evening Gladstone offered an amendment fixing the rate at five pounds. After a long debate the amendment was rejected—Government obtaining a majority of 24.

April 13.—The *Times* has a congratulatory editorial on the defeat of the Liberals, it criticises the course of Gladstone, while that of the Liberals who deserted their party is highly lauded. It adds that the Liberal bolters hold the balance of power.

LUXEMBOURG, April 12.—The people of this province are generally opposed to the sale of the Grand Duchy to France.

CALIFORNIA.

SAN FRANCISCO, April 17.—In the prize fight which took place at Point Isabel, Contra Costa County, yesterday, Chandler was declared winner after the 23d round. Harris was badly punished, his jaw-bone broken and was unconscious on last round.

DEATH.

AT Brunnette Farm on the 19th inst Laura, fifth daughter of Mr. William Holmes, aged 11 years and 9 months.

The funeral will leave the residence of Mr. Holmes at 2 30 p.m. to-morrow and proceed to the Public Cemetery. Friends and acquaintances are invited to attend.

NOTICE.

I Hereby caution the Public against crediting any person on my account, as I will not be responsible for debts contracted in my name.

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humours, and affecting a radical and complete cure. The Pills should be taken according to the printed directions, as they are so prepared as to act in unison with it, facilitating and confirming the cure, most of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that those often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, proving it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours, eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The Blood being in an impure state, perseverance is necessary. From Benjamine motives letters of advice will be answered gratuitously, as to the cases the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,	
Bad breasts,	Contracted and	Sore Nipples,	
Burns,	Stiff Joints,	Sore-throats,	
Bunions,	Elephantiasis,	Skin-diseases,

HOLLOWAY'S OINTMENT AND PILLS.—The disheartened by ill-health need not be inconsolable, till they have honestly given a fair trial to these trusty medicaments. One grand fact to be noted is, that they are impotent to do mischief in any case, because both Ointment and Pills are composed of the finest balsams, which purify, regulate, and strengthen the animal economy. Every one may confidently recommend these remidies to their friends afflicted by bad health: they will free them from disease, and confer on them the greatest good man can desire. Both external and internal maladies have succumbed to the persevering use of Holloway's Ointment and Pills, when the duration of some, and the excruciating pains of others have defied ordinary measures.

GOOD ACCOMMODATION.—Travellers to Cariboo this season will find most comfortable quarters at the Colonial Hotel, Soda Creek, the enterprising proprietors Messrs. McLeese & Senay being prepared to afford to those who may favor them with a call increased accommodation at a much less cost than hitherto, *

TOYS AND FANCY GOODS.—G. C. Clarkson & Co. having made large additions of the above Goods to their stock, any one wishing to make a present would do well to give them a call, as they have a great variety of nice, neat and natty articles of vertu which are useful, and at the same time will please the eye and adorn a table or mantel-shelf. *

CODVILLE LANDING!

Important to Packers, Stock Drivers, and the Public in General.

THE Public are respectfully informed that James Codville, of the wide renowned Codville Landing Ranch, is prepared to receive any number of animals and cattle to ranch this coming winter, on the most liberal terms.

Large Reductions from the regular price made in favor of trains.

Persons intending wintering their own stock can be accommodated with Hay in the stack, and stables and sheds for their animals, and Houses for themselves, on the most reasonable terms.

The Ranch is situated on the opposite side of the Fraser from that of Sumass, is on an island 6½ miles long by 4½ wide, is high and dry, no place where animals can mire, well protected from north winds, free from any kind of poison weed, and affords every facility, natural and artificial, for the accommodation of stock.

James Codville would also call public attention to the fact that he is prepared to furnish Hay at a very reduced price, and in quantities to suit all purchasers.

In returning thanks to the Public for past patronage, I am in hopes that the good condition in which I turned out animals on former seasons will secure for me a share of the Public patronage this coming winter.

Horse covers, pack saddles, and all rigging taken care of, and every satisfaction given for the least possible charge to those who may entrust their stock to me, or order Hay.

AGENTS.—DIETZ & NELSON, New Westm'ster.
A. BARLOW, Esq., Yale.

Remember Codville Landing, not Sumass.

An Hotel open and a ferry from the 1st October, for the traveling Public.

AYER'S CATHARTIC PILLS.

ARE you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering & disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see what a direct power they have to restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and surely cured by the same means. Now you know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After one bottle was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Eder of Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have *cured* with your Pills—for then to say *all that we ever tried with a character above par*, etc. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PETERSBURG, PA., May 1, 1855.

DR. J. C. AYER. SIR: I have been repeatedly cured of the worst *headache* ever had can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE, *Capt. of Steamer Clarion.*

Bilious Disorders—Liver Complaints.

From Dr. Theodore R. ——, of New York City.

Not only are your Pills well adapted to their purposes as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual in the cure of *bilious complaints* than any one related to them I can mention. I sincerely rejoice that we have at last a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington City, 11th Feb., 1856.

SIR: I have used your pills in my general and hospital practice ever since you first sent them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ROBT. McSHANE, M. D., *Phys. and Surg. of the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Gird, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. YOURS, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood*.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn of Bristol, Canada.

Too much cannot be said of your Pills for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which although bad enough in itself, is the promoter of others that are worse. I believe *one-fourth* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills taken at the proper time are excellent promoters of the *natural secretion* when wholly or partially suppressed, and also very efficient to *cleanse the system* and *expel worms*. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 5, 1856.

HONORED SIR: I should be unmerciful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains*, which ended in *chronic rheumatism*. Notwithstanding I had the best of physicians the disease grew worse and worse until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been speedily cured, by your Pills, of *Rheumatic Gout*—a painful disease that had afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

After a long research, we are able to present the most present the most remarkable cure for these horrid nightmare diseases, the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and not an instance of complaint has come to our knowledge!

It is a most effectual tonic and agreeable stimulant, suited to all conditions of life.

The report that it relies upon mineral substances for its active properties are wholly false.

The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell. A toilet delight! The ladies' treasure and gentlemens' boon! The "sweetest thing" and largest quantity. Manufactured from the rich Southern Magnolia. Used for bathing the face and person, and to render the skin soft and fresh, to prevent eruptions, and to perfume clothing, &c.

It overcomes the unpleasant odor of prespiration.
It removes redness, tan, blotches, &c.
It cures nervous headache and allays inflammation.
It cools, softens, and adds delicacy to the skin.
It yields a subdued and lasting perfume.
It cures musquito bites and sting of insects.
It contains no material injurious to the skin.

It is what every lady should have. Sold everywhere. Try the Magnolia Water once and you will use no other Cologne, Perfumery, or Toilet Water afterwards.

Mustang Liniment.

Have you a hurt child or a lame horse? Use the Mexican Mustang Liniment.

For cuts, sprains, burns, swellings and caked breasts the Mexican Mustang Liniment is a certain cure.

For rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Liniment.

For spavined horses, poll evil, ringbone and weeney, the Mexican Mustang Liniment never fails.

For wind galls, scratches, big-head and splint, the Mexican Mustang Liniment is worth its weight in gold.

Cuts, bruises, sprains and swellings, are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

"In lifting the kettle from the fire, it tipped over and scalded my hands terribly. * * * The Mustang Liniment extracted the pain, caused the sore to heal rapidly, and left very little scar.

CHAS. FOSTER, 420 Broad St., Phila.

Mr. S. Litch, of Hyde Park, Vt., writes: "My horse was considered worthless, (spavin,) but since the use of the Mustang Liniment I have sold him for $150. Your Liniment is doing wonders up here."

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentary, diarrhœa, constipation, liver complaints, &c., as fact attested by myriads of witnesses. Excessive weakness and debility, the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system, by the restorative and exhilirating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every crisis perilous to the life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the liver; if bilious attacks be allowed to continue, serious casualties may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day; and the Pills taken in unison, will cure any complaints arising from these organs.

Puffy,—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may tend to some serious disorders of the heart, or other vital organs. but moderately of solids, take six Pills nightly for some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this, but for three days only, and the result will be marvellous.

Complaints incident to Children.

All complaints of children may soon be cured if care be taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels by a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil,
Asthma,	Fevers of all kinds,	Sore Throats,
Bilious Complaints,	Fits,	Stone and Gravel,
Blotches, on the Skin,	Gout,	Secondary Symptoms,
